

We're
on an
Adventure!

CHILDREN'S PROGRAMS

Nursery through Fifth Grade

SAFETY AND SECURITY

1. Each family must complete a registration form at their child's first visit to Mission Adventure.
2. Each child will need to be signed in weekly with parent or other responsible party alerting the registration attendants to any allergies or other medical conditions at **each** visit.
3. Each child will be assigned a unique security number. The person picking up the child will need to present their copy of that security number.
4. In the event that a security number is lost, the person picking up the child will be asked to wait until the other children have been securely dismissed. At that time a staff member will request a driver's license or other photo ID. The staff member will compare the driver's license against the registration information to be sure that this person has been authorized to pick up the child. The staff member is then to make note of the name and ID number of the person to whom the child was released from the secured area.
5. Children can only be taken from the secured area by those who have signed them in that day or who are listed on the registration form.
