**Christmas Shoe Project** - We are partnering with Life Outreach International to provide shoes for children who don’t own any shoes, which can be unsanitary and dangerous. Each pair of all-terrain shoes cost $3.60 to manufacture, ship and deliver all over the world. We have set a goal to donate 4000 pairs of shoes to help kids get where they need to go without fear of injury or disease because they are barefoot.

**Feed the Need** – Jesus taught us to be like Him and feed the hungry. Christ Church continues to provide 200 elementary-aged students with food each weekend through our Food4Kids program. Each bag of food we provide costs an average of $3.60 and each student receives between 35 and 38 bags of food in a school year. We also provide food for hundreds of families each month through our West and Old Brooklyn Food Pantries in collaboration with Second Harvest and the Cleveland Food Bank.

**Special Projects** – From time to time, projects come up that incur expenses that were unforeseen or are not covered in the general operating budget. If funds received from the Christmas offering exceed what is needed for the Christmas Shoe Project and Feed the Need, they will be allocated toward these special projects.
